

SPM147

Mobile signage cart

The Mobile signage cart, SPM147 is a rolling mounting solution designed for larger screens, which can be useful for various applications, such as training presentations, trade shows, or mobile displays. Whilst being a mobile display solution, this is a very stable and sturdy solution. The base of the Mobile Signage Cart is capable of hiding cabling, power bricks, media players, and other accessories. This can help maintain a neat and organised appearance while also minimising the risk of tripping over cables and other components. The SPDS2117 and SPDS2107 complements the SPM147 by providing VESA mounting options for a wider range of displays (VESA 200, 300 and 400)

Features:

- Mobile solution for a single screen
- Portrait and landscape orientation
- 5-year warranty

Specifications

VESA mounting standard	100 x 100
Displays supported	1
Screen size supported	15",17",19",21"
Warranty	5 Years
Unit per box	1
Net Unit weight (kg)	13
Gross Unit weight - box 1 (kg)	13.65
Colour Type	Structured
Height Adjustable	No
HS code	8473308000
Main Material	Metal
Screen Setup	Single-sided

Product Dimensions

Unit Depth (mm):	566.4
Unit Height (mm):	1533
Unit Width (mm):	461.3

Package Dimensions

Package Depth (mm):	490
Package Height (mm):	220
Package Width (mm):	1450
