

The Height Adjustable Arm is an ergonomically designed mounting solution that reduces the possibility of Repetitive Strain Injury (RSI), whilst assisting productivity at the workstation. The height adjustable arm enables the screen to be raised or lowered to the appropriate eyeline of the operator. The Height Adjustable Arm can be mounted in front of the operator or to one side with screen located in front of the operator, mounted on the arm.

**Features:**

- Compatible with VESA 75 and VESA 100 mounting hole patterns
- Provides light resistance, with a tension range of 2.5 to 5 kg, suitable for low to mid-intensity applications or gradual progression.
- Allows easy adjustment of screen height, promoting ergonomic positioning
- 5-year warranty
