TabPOS A-Frame™

Tablet Solutions

A stylish secure enclosure for all tablet devices

The A-Frame is a fixed tablet enclosure that securely mounts a wide range of tablets. Ideal as an integral element of a self-service checkout, this enclosure also opens up a wide range of unattended self-service applications such as information points or customer sign in.

Compatibility

A-Frame is compatible with any tablet from 7.9" to 12.9", including Apple, Samsung, Zebra and other manufacturers, and our range of TabPOS mounts.

Features

- **Security:** A-Frame offers two locking options; Choose the Kensington push lock for visual security with the flexibility to easily remove the tablet, or choose the more discreet security screw option

- **Flexible:** Floor, desk & wall mounted options are available. A-Frame is also available in a range of colours to suit your environment

- **Versatile:** Extend the reach of your solution by adding payments and scanning options

- **Tilt & Rotation:** A-Frame can be mounted in either portrait or landscape mode. You also have the flexibility to change the orientation, once mounted

Benefits

- **Peace of mind:** Unattended self-service applications are securely locked, keeping your business running. Any registered lost Kensington key will be replaced, free of charge

- **One look:** A wide range of mounting options to suit your environment- one platform for both attended and unattended applications

- **Maximise ROI:** Turn any tablet into a self-service point when paired with the full range of payments brackets and accessories, optimizing the counter space, and keeping that chic designer look

- **Adaptable:** Ability to change orientation to suit your specific needs now and in the future
