

TabPOS U-Frame™

Tablet Solutions

A simple, cost effective adjustable frame for mounting all standard tablets from 7" to large 13" Pro formats. Built with modularity in mind, U-Frame is perfect for TabletPOS, digital signage, front of house attended self-service or customer information.

Features

- **Compatibility** - One universal mount compatible with tablets from Apple, Samsung and other manufacturers, and our range of SpacePole® mounts
- **Maximise ROI** - Turn any tablet into a point of sale or information point with U-Frame when paired with the full range of SpacePole mounts
- **Modularity** - Build your solution as you want it, with our standard range of mounts and accessories add-ons, such as a second screen, printer or payment device
- **Easy set up** - Bring smart, simple to use and cost-effective TabletPOS to retail and hospitality environments

Benefits

- **Return on investment** - Upgrade any tablet or swap devices to suit the application. One U-Frame fits all
- **Flexible** - Designed for SpacePole for flexibility and multiple use cases
- **All in One** - Combine U-Frame and TabPOS TabPrint™ Curve (with a printer) for the ultimate TabletPOS solution
